

**Daniels Field Multipurpose Recreational Area – RFI #5**

**Question:**

Who will be handling compaction testing?

**Answer:**

The project soils engineer will provide inspections per the permitted drawing requirements. Any special testing and special inspectors will be provided by the Contractor of Record.

**Question:**

Who will be handling testing of the retaining wall?

**Answer:**

Any special testing and special inspectors will be provided by the Contractor of Record.

**Question:**

For the modular structure area, should the contractor bid on the slab and footings?

**Answer:**

Bid on the slab only, not the footings.

**Question:**

Will the bids be evaluated on the base bid and the additive alternatives?

**Answer:**

The bids will be evaluated primarily on the base bid.
